

My Journey with Raspberry Pi WebRTC

Feb 9 , 2025

Tzu-Huan Tai

Who am I

I was a Mechanical Engineer

I studied in Renewable Energy

I became a Software Engineer

I'm in the U.S. now

The story begins with the Small Greenhouse

Raspberry Pi WebRTC

libwebrtc m115.5790 downloads 541 C++ 20 release v1.0.5 License Apache 2.0

Turn your Raspberry Pi into a low-latency home security camera using the V4L2 DMA hardware encoder and WebRTC. [\[demo video\]](#)

- Pure P2P-based camera allows video playback and download without a media server.
- Support [multiple users](#) for simultaneous live streaming.
- Support signaling via [WHIP](#) or MQTT.

OpenAI

I was invited to interview.

Because of my open source side project!

What they're planning?

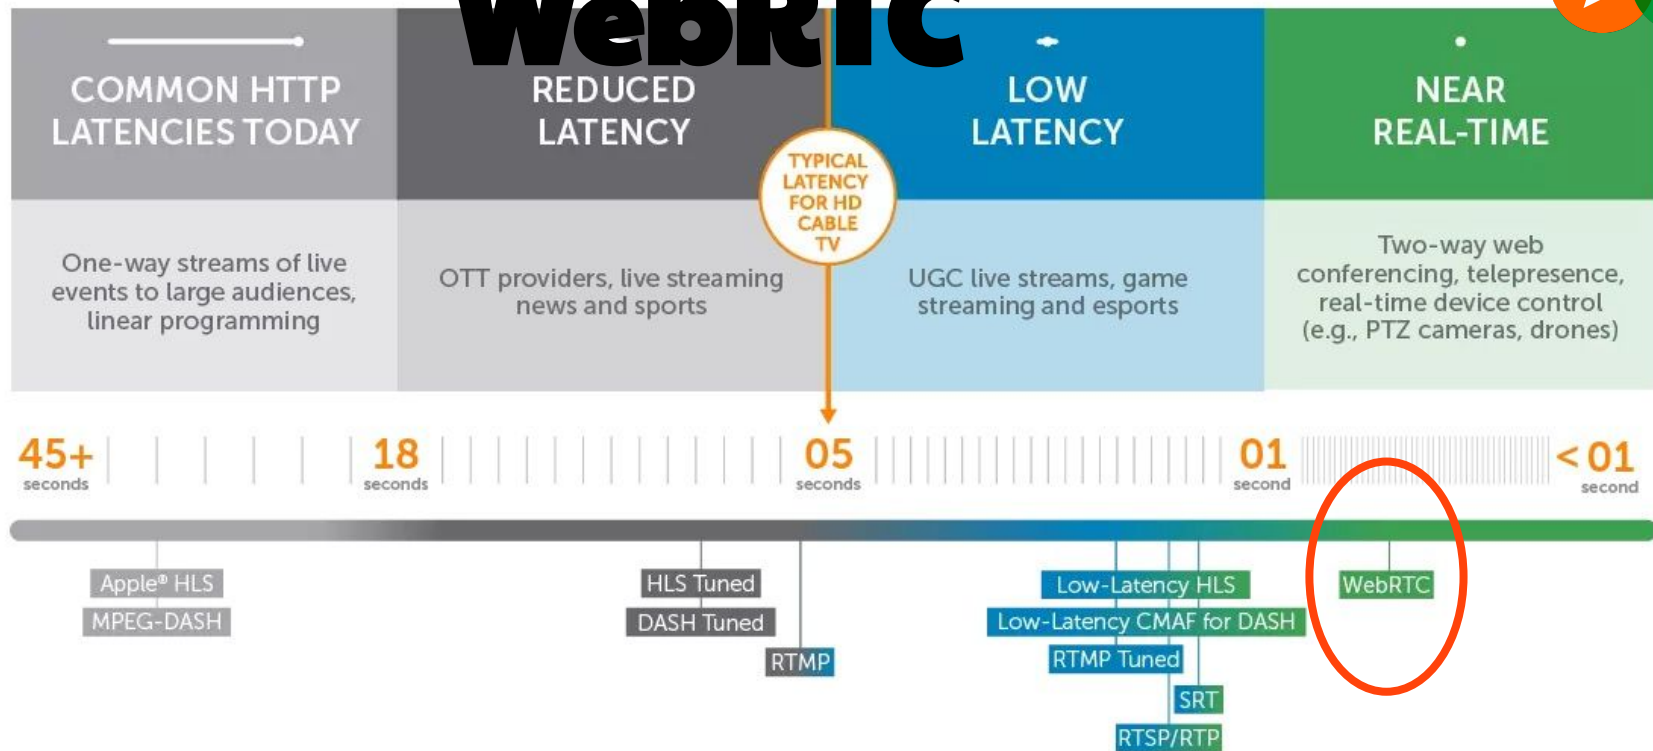

ESP32

Run audio AI on embedded platform via **WebRTC**.

Opportunity

What I learned

- **Learning**
- **Personal Brand**
- **Determination**
- **Luck !**

The background features several colorful geometric shapes: a teal parallelogram in the top-left, an orange semi-circle in the top-center, a yellow rectangle with torn edges in the top-right, a purple circle in the bottom-left, a green rectangle with torn edges in the bottom-center, and another purple circle in the bottom-right. A small teal parallelogram is also partially visible behind the text.

Q&A

**THANK YOU VERY
MUCH**
